INTRODUCTION

Each year the Housing and Community Development Division of the Utah Department of Workforce Services releases a report on the latest data related to people experiencing homelessness in the state. Current and accurate data is essential for making wise policy and service decisions. It helps to ensure that resources are being used effectively and that programs and initiatives are meeting goals and enhancing the opportunities for success.

This is never more true than when major changes are being made to services. Utah is in the midst of a significant shift in the delivery of homeless services, as the large, centralized downtown Salt Lake City emergency shelter is scheduled to close June 2019 and be replaced with three, smaller, population-specific homeless resource centers. The new centers will house essential services under one roof and will provide safe, secure facilities that fit into the neighborhoods where they are located. The system as a whole will refocus efforts on moving individuals and families out of emergency shelter and into a more stable housing situation as quickly as possible.

We hope that policy makers, homeless services providers and the regular citizens of Utah will use this report as a resource to become further engaged in issues surrounding homelessness. We want everyone to have the facts that they need to be informed participants in the discussion, as they help to shape their communities and serve those who are less fortunate. Utah is widely recognized as a state where people are service-oriented and give back to their neighborhoods and communities. Although not without their challenges, the three new homeless resource centers provide ample opportunity to provide input, give service and to support the self-sufficiency of Utahns experiencing homelessness.

Jonathan Hardy
Director, Housing and Community Development Division
Utah Department of Workforce Services

housing.utah.gov/reports

HOMELESS DATA DASHBOARD

In 2017, the Housing and Community Development Division, in partnership with the state's Continuum of Care (CoCs), launched a new data dashboard to make Utah's latest homelessness data available to the public and service providers (see "Utah's Approach to Homelessness" to learn more about CoCs). The data is searchable and sortable by date, location, service provider and more. The ability to access the most up-to-date information from around the state should help cities, counties, the state and nonprofit services providers to make wise policy and programming decisions and to react to changes and trends quickly.

Explore the dashboard at housing.utah.gov.

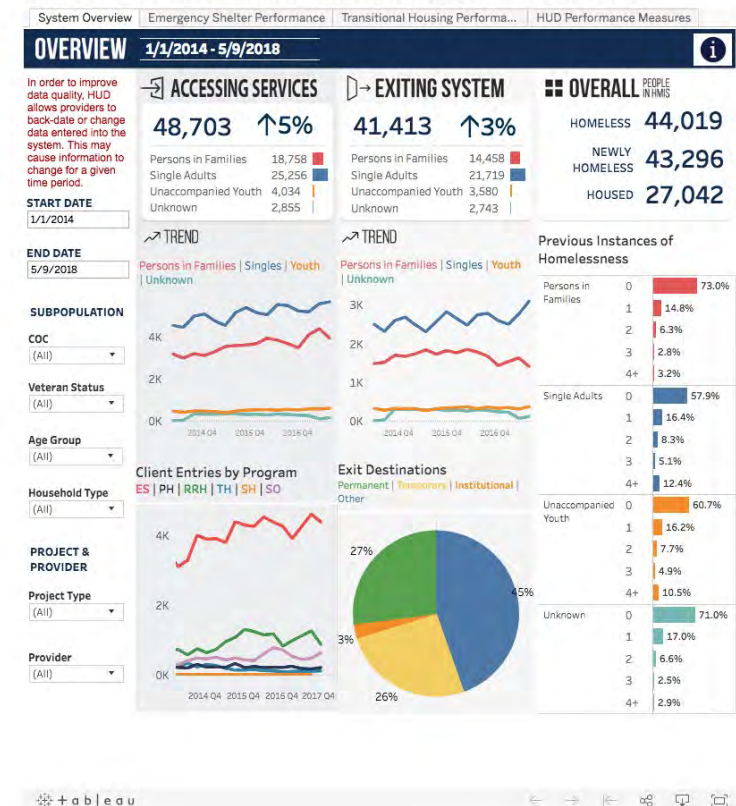

Please note that the information in the dashboard can change over time because providers can back-date or change data entered into the system to improve data quality. Therefore, data pulled at a certain point in time for a printed report may differ from the data that appears in the dashboard at a later date. Data in the dashboard is generally updated monthly.

Homelessness Data Dashboard

The scope of homelessness is difficult to measure and therefore some data may be duplicated. In order to measure this population, community leaders must rely on a variety of fluid data sources to inform them about trends, demographics, and outcomes. It should be noted that not all service providers enter information into the Utah Homeless Management Information System (UHMSIS) due to privacy laws or because they are not receiving funding that requires them to participate.

OPERATION RIO GRANDE

Operation Rio Grande launched August 14, 2017, with a three-phase plan to restore public safety in the Rio Grande District of Salt Lake City, after drug use and violence reached a tipping point in July 2017. As each phase progresses, the environment in the Rio Grande area improves for the individuals seeking supportive services to overcome homelessness. A dashboard report, updated monthly, is found at operationriogrande.utah.gov and tracks the outcomes for each phase.

The common goal to prevent and minimize homelessness is measured in two key areas.

1. Reduce the length of time people need shelter from the SFY 2017 baseline of 48.5 days
 - Reduced to 43.5 days as of July 2018
2. Increase the number of successful exits from the shelter to housing from the SFY 2017 baseline of 119
 - Increased to 138 as of July 2018

See the latest results at: operationriogrande.utah.gov

PHASE 1: PUBLIC SAFETY AND RESTORING ORDER is measured by comparing part one offenses (serious or frequent crimes) to a three-year average. By June 2018, part one crimes in the Rio Grande area were down 43 percent compared to the three-year average.

PHASE 2: ASSESSMENT AND TREATMENT supports people struggling with mental illness and drug addiction so they can return to a path of self-reliance. From August 2017 to June 2018:

- 243 treatment beds have been added
- 192 behavioral health assessments have been completed
- 105 individuals have pled into the Drug Court program
- 66 sober living residential beds have been added
- 92 individuals were placed in sober living

PHASE 3: DIGNITY OF WORK prepares and connects individuals to income that supports housing. From November 2017 to June 2018:

- 92 individuals became employed
- 309 job seekers developed an employment plan

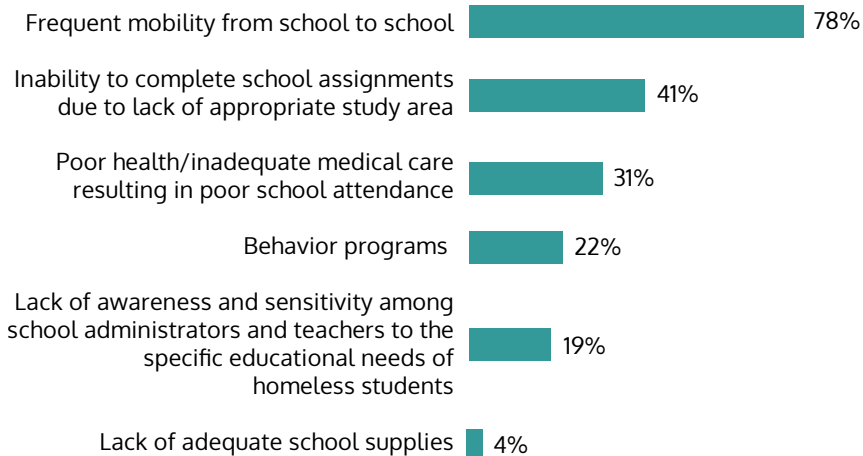

Funding for short-term and long-term housing supports have achieved the following from August 2017 to June 2018:

- 352 individuals diverted from emergency shelter to immediate alternate housing arrangements
- 265 individuals have been housed

THE INTERSECTION OF INTERGENERATIONAL POVERTY AND HOMELESSNESS

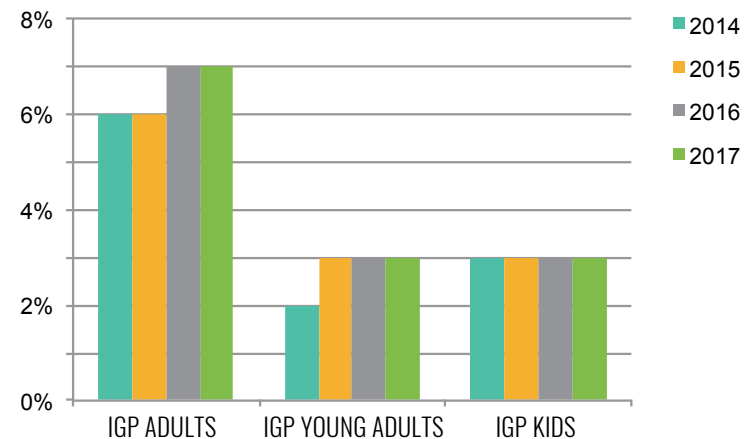

In 2017, the Utah Legislature amended the Intergenerational Poverty Mitigation Act to include evaluation of the intersection between child homelessness and intergenerational poverty (IGP). The following data reflects that connection through housing mobility, utilization of homeless services and use of emergency shelter services among IGP families.

TOP CHALLENGES HOMELESS CHILDREN FACE IN ATTENDING SCHOOL

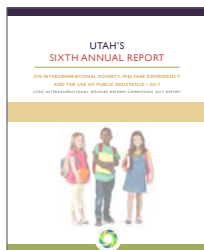

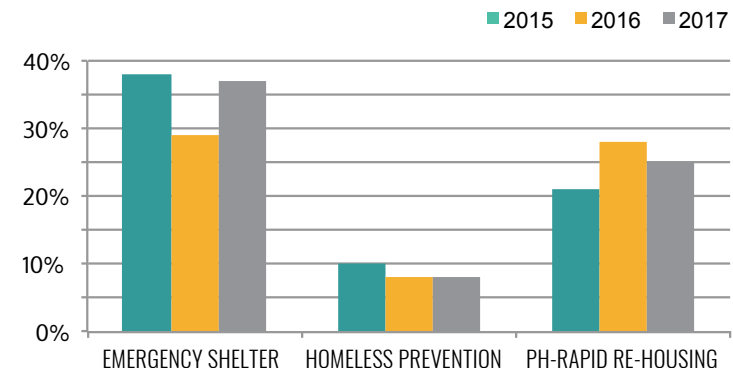

IGP USE OF HOMELESS SERVICES

People in IGP Using Services Tracked in HMIS, 2014-2017

IGP USE OF SHELTER SERVICES

Percent of Children in IGP Utilizing Shelter, 2015-2017

intergenerationalpoverty.utah.gov

UTILIZATION OF HOUSING RESOURCES

BED UTILIZATION

On January 24, 2018, each of Utah's Continua of Care carried out the HUD-mandated Housing Inventory Count (HIC). The HIC compares the number of individuals spending the night in homeless services programs to the number of beds available in those programs on a specific night. This enables communities to generate a snapshot of their homeless service system's capacity and the extent to which those resources are being utilized.

For more information on the HIC, please see "Utah's Approach to Homelessness."

WHAT IS COUNTED IN THE HIC:

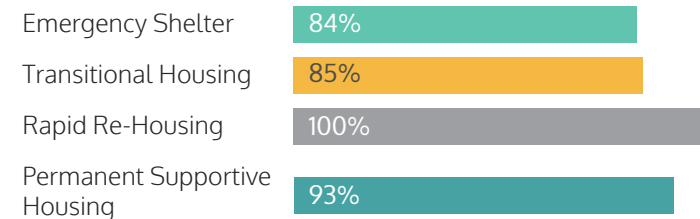

Number of beds and units available on the night of the Point-in-Time Count, including domestic violence providers:

- Emergency Shelters
- Transitional Housing
- Safe Havens
- Permanent Supportive Housing
- Rapid Re-Housing
- Other Permanent Housing

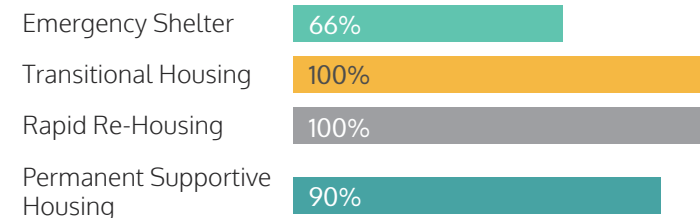

2018 BED UTILIZATION RATES

BALANCE OF STATE COC

UTILIZATION OF HOUSING RESOURCES

LENGTH OF STAY IN EMERGENCY SHELTER

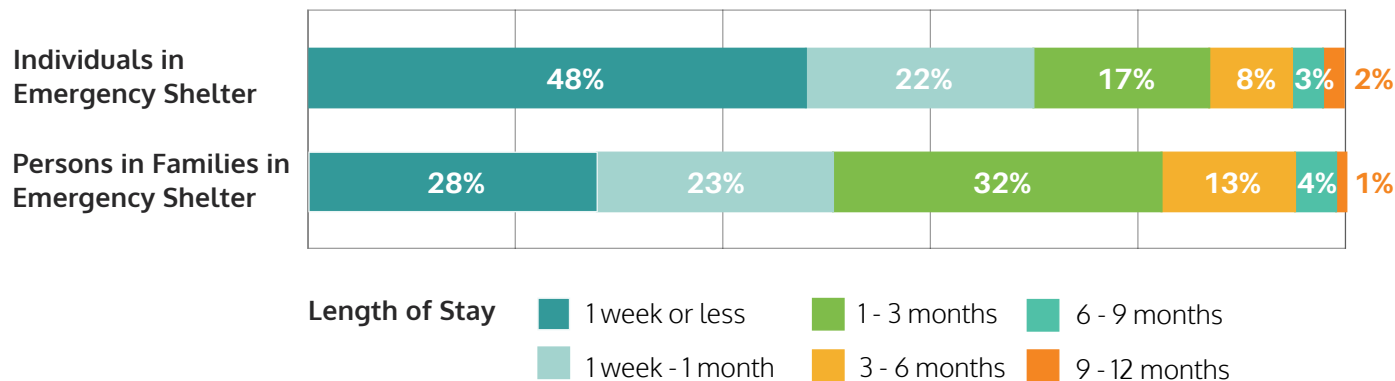

Emergency shelter programs are designed to provide overnight sleeping accommodations for the homeless. These accommodations may exist in a dedicated building or be provided by paying for motel stays. As emergency shelter is intended to provide short-term relief of a housing crisis, Utah emphasizes reducing the length of time that individuals and families spend in shelter and seeks to move individuals into more permanent housing as soon as possible. According to HMIS data from October 1, 2016 to September 30, 2017, 70 percent of homeless individuals and 51 percent of homeless families in Utah exit emergency shelter within one month of entering the shelter,

while only five percent of homeless individuals and five percent of homeless families stay in shelter for six or more months.

For more information on emergency shelter programs, please see "Utah's Approach to Homelessness."

51% of homeless families **exit** emergency shelter within **one month**.

LENGTH OF STAY IN EMERGENCY SHELTER — OCTOBER 1, 2016 - SEPTEMBER 30, 2017

HOUSING AFFORDABILITY

Utah has a shortage of affordable housing. Creating a sufficient supply of affordable units alleviates pressure on the homeless system by those who simply cannot afford rent. Affordable rent, as defined by HUD, is 30 percent of income. The average Fair Market Rent (FMR) in Utah for a two-bedroom apartment, as established by HUD for 2018, is \$924 per month. The hourly wage needed to afford that rent was \$17.77 per hour, but the average renter wage was \$13.92 per hour (National Low Income Housing Coalition, "Out of Reach" 241). An affordability gap exists even among those employed at average renter wage. Most homeless individuals earn far less than this average renter wage. Many simply receive Supplemental Security Income, and affordability becomes that much more of a challenge. Unit affordability and availability is not an issue exclusive to the Wasatch Front but is a challenge faced by communities statewide. The credit and criminal histories that challenge many experiencing homelessness further limit unit availability.

See Utah's complete report on affordable housing at housing.utah.gov/reports.

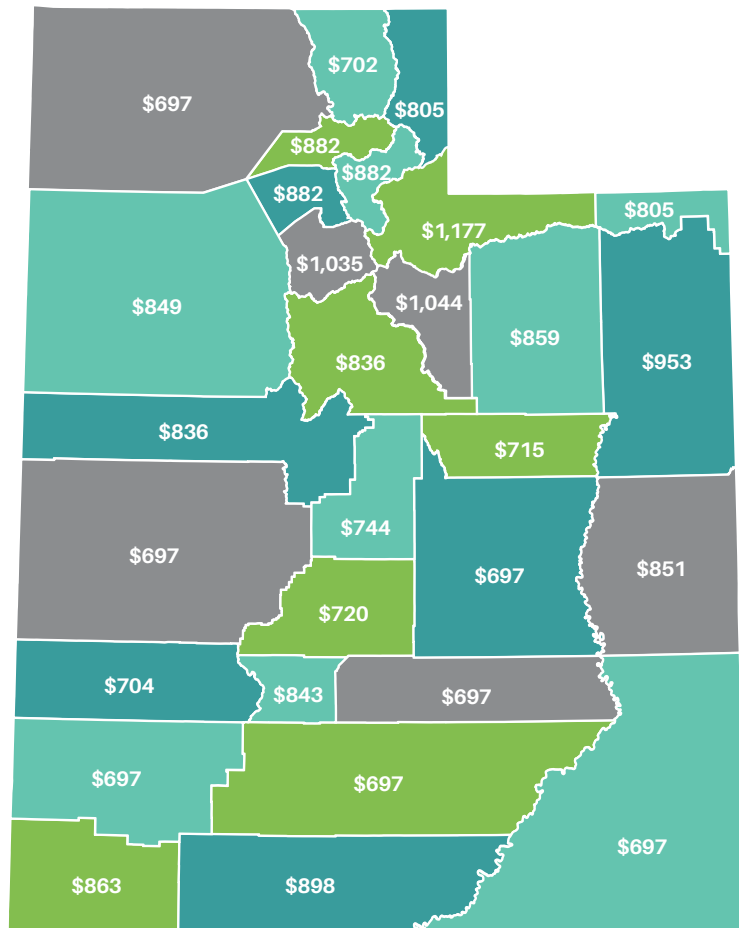

FAIR MARKET RENT BY METRO AREA MONTHLY FMR FOR A TWO-BEDROOM APARTMENT, FY 2018

METROPOLITAN AREA	FMR FOR 2BDRM/MONTH
Box Elder County HMFA	\$697
Logan MSA	\$702

Rent affordable with full-time job paying minimum wage	\$377
Rent affordable with full-time job paying mean renter wage	\$724
Rent affordable to household at 30% Area Median Income (AMI)	\$568
Rent affordable to SSI recipient	\$233

PERFORMANCE MEASURES

For many years, HUD has reviewed the impact of its funds on reducing homelessness on a program-by-program basis. As a result, it has been difficult to gain an accurate and comprehensive community-level understanding of the performance of the homelessness services system. To address this need and comply with the HEARTH Act, HUD has developed several system-level performance measures to be reported on by a Continuum of Care (CoC) as a whole. These measures help CoCs more accurately measure their impacts, successes, and challenges in order to inform strategic decisions in the development of the homeless system. The graphic to the right shows the HUD System Performance Measures that have been identified as particularly significant in considering homeless services in Utah. This report covers the time period of October 1, 2016 to September 30, 2017.

MEASURE 1: LENGTH OF TIME PERSONS REMAIN HOMELESS

	TOTAL PERSONS		AVERAGE NUMBER OF NIGHTS HOMELESS			MEDIAN NUMBER OF NIGHTS HOMELESS		
	Oct. 1, 2015 – Sep. 30, 2016	Oct. 1, 2016 – Sep. 30, 2017	Oct. 1, 2015 – Sep. 30, 2016	Oct. 1, 2016 – Sep. 30, 2017	Difference	Oct. 1, 2015 – Sep. 30, 2016	Oct. 1, 2016 – Sep. 30, 2017	Difference

MEASURE 2: THE EXTENT TO WHICH PERSONS WHO EXIT HOMELESSNESS TO PERMANENT HOUSING DESTINATIONS RETURN TO HOMELESSNESS

This measures clients who exited street outreach, emergency shelter, transitional housing, safe haven, or permanent housing program to a permanent housing destination in the date range two years prior to the report date range. Of those clients, the measure reports on how many of them returned to homelessness as indicated in the HMIS for up to two years after their initial exit.

	PERSONS WHO EXITED TO A PERMANENT HOUSING DESTINATION IN THE 2 YEARS PRIOR	RETURNS TO HOMELESSNESS IN LESS THAN 6 MONTHS (0 - 180 DAYS)		RETURNS TO HOMELESSNESS FROM 6 TO 12 MONTHS (181 - 365 DAYS)		RETURNS TO HOMELESSNESS FROM 13 TO 24 MONTHS (366 - 730 DAYS)		NUMBER OF RETURNS IN 2 YEARS	
		# of Returns	% of Returns	# of Returns	% of Returns	# of Returns	% of Returns	# of Returns	% of Returns

Number of adults who exited CoC-funded projects	250	192	-58
Number of adults who exited with increased total income	84	81	-3
Percentage of adults who increased total income	34%	42%	8%

MEASURE 5: NUMBER OF PERSONS WHO BECOME HOMELESS FOR THE FIRST TIME

Change in the number of persons entering ES, SH, TH, and PH projects with no prior enrollments in HMIS

	OCTOBER 1, 2015 TO SEPTEMBER 30, 2016	OCTOBER 1, 2016 TO SEPTEMBER 30, 2017	DIFFERENCE
SALT LAKE COUNTY COC			
Persons entering emergency shelter, transitional housing, or permanent housing programs who did not have entries in emergency shelter, safe haven, transitional housing, or permanent housing projects in the previous 24 months.	5,899	5,457	-442
MOUNTAINLAND COC			
Persons entering emergency shelter, transitional housing, or permanent housing programs who did not have entries in emergency shelter, safe haven, transitional housing, or permanent housing projects in the previous 24 months.	1,246	1,110	-136
BALANCE OF STATE COC			
Persons entering emergency shelter, transitional housing, or permanent housing programs who did not have entries in emergency shelter, safe haven, transitional housing, or permanent housing projects in the previous 24 months.	3,720	3,566	-154

MEASURE 7: SUCCESSFUL PLACEMENT FROM STREET OUTREACH AND SUCCESSFUL PLACEMENT IN OR RETENTION OF PERMANENT HOUSING

This measures positive movement out of the homeless system and is divided into three tables: movement off the streets from Street Outreach (Metric 7a.1); movement into permanent housing situations from ES, SH, TH, and RRH (Metric 7b.1); and retention or exits to permanent housing situations from PH (other than PH-RRH).

The construction of measure 7b.1 has been updated per HUD's specifications to include persons in any PH project type who exited without moving into housing (i.e. had a project start date, but no housing move-in date). HUD is aware that this may impact the change between these two years.

CHANGE IN EXIT TO OR RETENTION OF PERMANENT HOUSING

	OCTOBER 1, 2015 TO SEPTEMBER 30, 2016	OCTOBER 1, 2016 TO SEPTEMBER 30, 2017	DIFFERENCE
SALT LAKE COUNTY COC			
Percent of exits from street outreach programs to temporary, some institutional destinations, or permanent housing	10%	2%	-8%
Percent of successful exits from emergency shelter, safe haven, transitional housing, and permanent housing: rapid re-housing programs to permanent housing	23%	17%	-6%
Percentage of successful exits to or retention of permanent housing in permanent housing programs other than rapid re-housing	94%	94%	0%
MOUNTAINLAND COC			
Percent of exits from street outreach programs to temporary, some institutional destinations, or permanent housing	0%	0%	0%
Percent of successful exits from emergency shelter, safe haven, transitional housing, and permanent housing: rapid re-housing programs to permanent housing	43%	39%	-4%
Percentage of successful exits to or retention of permanent housing in permanent housing programs other than rapid re-housing	81%	86%	5%
BALANCE OF STATE COC			
Percent of exits from street outreach programs to temporary, some institutional destinations, or permanent housing	26%	30%	4%
Percent of successful exits from emergency shelter, safe haven, transitional housing, and permanent housing: rapid re-housing programs to permanent housing	45%	43%	-2%
Percentage of successful exits to or retention of permanent housing in permanent housing programs other than rapid re-housing	85%	87%	2%

POINT-IN-TIME COUNT

On January 24, 2018, each of Utah's Continua of Care carried out the HUD-mandated Point-in-Time Count (PIT). The PIT is a massive effort to count everyone who meets the HUD definition of literal homelessness in a community on a specific night. As a result, the PIT captures people who spent the night in an emergency shelter, transitional housing, or in a place not meant for human habitation. While many factors, from the weather to the way the count is organized and performed, influence the results of any given PIT count, the PIT is a useful tool in calculating the community's need for homeless services on any given night. It is also one of the only tools available for measuring the number of homeless individuals who are not enrolled in homeless service programs. For more information on the PIT, please see "Utah's Approach to Homelessness."

HUD periodically updates the criteria it uses to determine who is included in specific subpopulations of the overall homeless population, such as youth and chronically homeless, counted in the PIT. The 2018 PIT guidance made a major change in the way HUD counted survivors of domestic violence. Where in past years HUD had communities report all individuals who identified as having experienced domestic violence in the past, HUD only included individuals who were currently fleeing a domestic violence situation in the 2018 PIT count of survivors. This redefinition resulted in Utah CoC's reporting a much lower domestic violence count than in previous years, but does not necessarily indicate a reduction in the number of domestic violence survivors experiencing homelessness on that night.

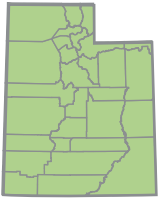

The following pages display the results of the PIT for the State of Utah as a whole, for each Local Homeless Coordinating Committee (LHCC), and then for each county. The state of Utah and LHCC profiles include data from the 2016, 2017, and 2018 PIT counts in order to provide some historical context. However, only 2018 PIT data is available for the county profiles, as this is the first year that data has been provided at that level. Results in any category that include less than 10 people are represented as <10 rather than the exact number. This has been done in order to protect the identities of those included in the count and prevent efforts to identify a specific individual or household from the aggregate data.

WHAT IS COUNTED IN THE PIT:

PERSONS IN:

- Emergency Shelters
- Transitional Housing
- Safe Havens
- Unsheltered Persons (people who are staying in public or private places not designated for or ordinarily used as a regular sleeping accommodation for human beings, including cars, parks, abandoned buildings, bus or train stations, airports or camping grounds during the hours between sunset and sunrise)
